Terms, Conditions and Directions

TERMS—Invariably cash, unless otherwise agreed upon. All orders to be sent C. O. D. must be accompanied with one-fourth the amount in cash. Remit by Money Order, Registered Letter or Bank Draft.

It is important that you order early. For the benefit of customers who wish to order early, but who do not care to spare all of the money when the order is sent, we will accept such early orders if 10 per cent of the amount is sent with order. We will reserve the stock for you. Balance to be sent when you order the stock shipped.

DIRECTIONS FOR ORDERING—Write name and address plainly. Always state distinctly the sizes and grades of stock ordered as per the grades given in this list. When named varieties cannot be furnished, we reserve the right to substitute such varieties as will fill the season as near as possible, unless prohibited in the order. Persons unacquainted with the different varieties will generally get a much better selection by leaving the assortment to us. Keep a correct copy of the order, so that when the stock arrives you will know exactly whether you get what you have ordered. If we make mistakes, they are accidental, and we wish to right them.

FREE FREIGHT, FREE EXPRESS—On all orders over \$10.00, accompanied by full remittance, we will **prepay** the Freight or Express charges to your R. R. Station, if east of Denver, Colo., and El Paso, Tex. Will prepay \$1.15 per 100 pounds to all points west of Denver and El Paso at the 1,000 rate.

On orders amounting to \$25 or more at single, 10 or 100 rates, will pay Freight to any point in the United States.

THE PRICES are for the quantities named, but five, fifty and five hundred will be supplied at ten, hundred and thousand rates, respectively, i. e., 5 at half the price of 10; 50 at half the price of 100, and so on.

PACKING—All goods are packed free. Notwithstanding this fact, we use the utmost care and pack according to the distance and to our customers' best interest. Everything is labeled.

OUR GUARANTEE—The fact that nurserymen, planters and fruit-growers of the country have ordered of us year after year, is as good a guarantee as can be given by any other nursery of thirty-four years' standing. But if any mistakes occur we will cheerfully rectify them.

We use the greatest care possible to have our stock true to name, and should any prove not true, we stand ready to replace it free of charge, or to refund the purchase money, but do not hold ourselves liable for any greater amount than the first cost of stock that may prove not true.

All our shipments of trees will be accompanied by **Certificate of Inspection of the State or Government Entomologist**. Good stock, true to name, sold direct to the planter at reasonable prices is our aim.

OUR LOCATION is the very best for producing well ripened stock with splendid roots. Our facilities for prompt shipments are first-class and we have special low **Express Rates**.

Remember that we pay the Freight or Express Charges on all orders amounting to over \$10.00 as above and guarantee safe arrival of shipments.

We solicit Correspondence and personal inspection of our stock, confident that it will compare favorably with the best.

NEW HAVEN NURSERIES
(*J. Basy & Sons Co.*)

New Haven, Missouri

Remarks on Varieties Size, Etc.

We wish to say that the **small size trees are strictly first-class and well rooted**, and by many will be preferred to the larger size.

VARIETIES—So many ask, "What should I plant in my locality?" that we will here name a few of the popular and profitable sorts for general planting.

APPLES—**Ben Davis, Jonathan, Mam. Black Twig, Gano, York Imperial, Rome Beauty, Wine Sap, Grimes' Golden, Maiden Blush, Yellow Transparent and Wealthy.** This is our **Commercial List**. Others would add perhaps, **Arkansas Black, Missouri Pippin, Duchess of Oldenburg, etc.** All of the above are good, profitable sorts, both for home use and the market.

PEACHES—If you want to market your fruit avoid planting too many early sorts. **Elberta, Salway, Carman, Capt. Ede, Fitzgerald, Champion, Mathews Beauty, Crosby, Stump, Heath Cling, Chair's Choice, Gold Dust, Foster and Crawford's Late.** are all profitable for market. Should early sorts be desired, **Triumph, Greensboro, Alexander and Sned** are what you should plant. If for home use, plant general assortment, including above, for a succession. Be sure to include **Golden Gate, Queen and Carman**. The peach tree should have the shoots and branches shortened every year or two. The land should be kept in a high state of cultivation.

PEARS—The fact is more and more apparent that **Keiffer** and **Garber** will stay in the lead for **profit**. **Duchess, Seckel, Bartlett, Koonce, etc.** should also be in most orchards.

CHERRIES—**Early Richmond, Dyehouse, Montmorency, Wragg (sour), Gov. Wood, Elton and Magana (sweet),** do very well and are profitable. **For general planting we do not recommend the English Morello.**

PLUMS—**Wild Goose (native), Common Damson, Shrop Damson, German Prune (European), Abundance, Wickson and Burbank (Japanese),** are all good bearers and profitable. We consider the **Abundance, Wickson and Burbank the best of the well-known Japanese sorts.** Try some or all of the **Japan sorts.**

THINNING FRUIT—When the trees are heavily laden, the fruit should be thinned when about one-third grown, else the fruit will be poor and the trees injured. The necessity for thinning was fully demonstrated during the dry summer of 1901.

WHOLE ROOT TREES—Pear, Peach, Plum and Cherry trees are all grown on "whole roots." Our Apples are all on whole roots, grafted and planted so that the scion also roots. Don't pay extra prices for "trade marks." We give our customers the **very best**, and we don't ask **two prices**. A trial order will convince you.

Our shipments for Fall of 1906 and Spring of 1907 consisted of **over one million fruit trees**, which went to thirty-nine states and territories. A total of about forty furniture car loads. Some of the materials required for the above shipments are as follows: 100,000 feet of lumber for cases; two furniture car loads moss and excelsior for packing roots of trees; 120,000 labels; 16,000 pounds of paper and twine. We are now growing on our premises over two million fruit trees, all clean and healthy; nothing over three years from bud or graft.

Apple Trees

A portion of Block of 250,000 Apple Trees.

Our apples are all grown on Missouri River upland, on well branched whole roots, smooth, clean and well grown in every respect. **No better trees can be found anywhere.**

	Each	10	100	1000
1 year old, 2 to 3 feet.....	\$0.07	\$0.70	\$6.00	\$45.00
2 years, 3 to 4 feet, mostly well branched.....	.08	.80	7.00	50.00
2 years, 4 to 6 feet, well branched, first-class..	.12	1.00	10.00	85.00
2 and 3 years, 5 to 7 ft., extra select, 11-16 up..	.20	1.50	12.00	110.00

SELECT VARIETIES.

SUMMER APPLES—Benoni—One of the best summer sorts.

Carolina Red June (Red June)—Medium size; red, flesh white. Last of June.

Duchess of Oldenburg—Russian—Medium to large size; skin yellow; streaked with red and somewhat blushed. Productive. August.

Early Harvest—Medium to large, bright straw color; flesh white. Tree moderately vigorous and productive; one of the best. First of July.

Keswick Codlin—Large, excellent for cooking; productive and early in bearing. July and August.

Spokane, Wash.

The 3,000 Peach trees you shipped me sometime ago were very satisfactory indeed. The inspection laws are very strict here and our inspector threw out only 18 of the trees. Yours truly,

W. S. HOYT.

Apple Trees—Continued

Red Astrachan—Large, crimson, handsome; rather acid, but good and crisp; profitable. Early.

Summer Queen—Medium to large; surface yellow, blotched and streaked with red; flesh yellow. August.

Yellow Transparent—This valuable Apple is said to be of Russian origin. However, we find it to be a very valuable addition to our list. Fruit medium to large; nearly white.

FALL APPLES—Maiden's Blush—Rather large, evenly shaded red cheek or blush on a clear pale yellow ground; bears large crops. August and September.

Rambo—Medium; streaked with dull red and somewhat dotted, productive and vigorous. September to November.

Rome Beauty—Large, yellow, shaded with red; tender, juicy, sub-acid. October to February.

Wealthy—An apple of fine appearance and quality, an early and profuse bearer; a good market apple of its season. Tree hardy; in size and beauty it equals Baldwin, and is a better dessert apple. Ripens here in August. Winter apple North.

WINTER APPLES—Arkansas Black—Origin Bentonville, Arkansas. The tree is a beautiful upright grower, young wood very dark. Fruit medium to large; fine flavor; beautiful dark color, almost black; flesh yellowish, slightly sub-acid, crisp. One of the best cooking apples; vigorous. January to May.

Ben Davis—Fruit medium to large, flesh white; an excellent variety. Tree very hardy, a free grower, coming into bearing early, and very productive; very popular. December to March.

Bellflower—A well-known popular sort. October to February in Missouri.

Grimes' Golden—Medium to large; rich golden yellow; flesh tender, mild, sub-acid. Should be gathered before turning yellow and put in a cool place, and often keeps until February. For canning purposes it nearly equals the pear. Tree hardy, vigorous; an early and abundant bearer. November to January.

Huntsman's Favorite—Originated in Johnson County, Missouri. Very large; golden yellow, with bright red cheek; nearly sweet, fine flavor, very aromatic. One of the best and highest selling market apples; tree very healthy and moderately productive. November to January.

Gano—This apple was introduced to the public in 1886. Tree very hardy; it bears very young. Fruit bright red on yellow ground, no stripes; large, oblong, tapering to the eye; surface smooth, takes a very high polish, making it valuable as a stand fruit; flesh white. An early, annual and prolific bearer. December to May.

Gilpin (Little Red Romanite)—One of the best late keepers.

Ingram—A seedling of the old Janet. Originated near Springfield, Mo. Its habits are similar to the Janet, but the tree is a more upright grower, and the apple is not subject to crack. Size medium; striped bright red in the sun; flesh greenish yellow, agreeable, sub-acid flavor; good keeper. Tree hardy, late bloomer and very productive.

Janet—(Rawle's Janet)—Medium, roundish, greenish, yellow, striped with red; rich and juicy, one of the best and longest keepers in the South and Southwest; valuable for its high quality and its late blooming; moderate grower. January to March.

We pay the Freight on all orders amounting to over \$10.00. Get your neighbors to join with you in an order.

Apples Trees—Continued

Jonathan—Fruit medium, roundish; skin yellow, nearly covered with dark or lively red; moderate grower. One of the best apples for home use or market. October to January.

Mammoth Black Twig—Supposed to be a seedling of the Wine Sap, but tree a better grower in the nursery and fruit much larger; or, in other words, an improved Winesap. Tree a fine, upright, spreading grower.

Missouri Pippin—Large, oblong, bright red, with numerous gray dots; very handsome, fair quality, an early and very abundant bearer, and very profitable. December to March.

Jonathan.

Payne's Keeper—It is a magnificent winter apple, selling higher than any other variety on the market. Our stock is from the original orchard of the Payne Sisters, near Everton, Mo. The tree is a slow grower in the nursery, and we offer 2-year-olds, 4 to 5 ft., at 20c each, 10 for \$2.00, 100 for \$16.00.

Salome—A northern Illinois apple, said to be very hardy, bearing early and abundantly. Resembles the Janet in size and color; a good keeper. January to April.

Talman's Sweet—Medium; pale yellow, slightly tinged with red; firm, rich and very sweet; valuable baking apple; vigorous and productive. November to April.

Winesap—Medium, dark red; a favorite market variety in the West. November to April.

Wolf River—Very large and handsome; flesh whitish, sub-acid, a good bearer. November and December.

Willow Twig—An old sort; large and profitable where not inclined to blight.

York Imperial—This apple has been gaining in favor, and is being planted largely in the West as a commercial sort. Large.

We also grow **Northwestern Greening, Western Beauty, Snow, Baldwin**.

Crab Apples—Hyslop, Whitney, Transeendant, at same price as other apples.

Peach Trees

We are the largest growers of Peach Trees in the West and can supply in any quantity—the best **up-to-date market sorts**. Our Peaches are stocky, nicely headed, smooth, straight bodies, well rooted, on healthy Peach stocks and free from any disease. Remember this in comparing prices with other establishments. **Freight Paid to Your Station**, on conditions mentioned. Prices as follows, unless otherwise indicated:

	Each	10	100	1000
1 to 2 feet, well rooted, 1 year from bud.....	\$0.06	\$0.50	\$4.00	\$30.00
2 to 3 feet, well rooted, 1 year from bud.....	.08	.75	6.00	45.00
Medium, 3 to 4 feet, nice, well branched.....	.10	.90	7.50	65.00
First class, 3½ to 5 feet, nicely headed.....	.12	1.00	9.00	80.00
Extra Select, 4½ to 6 feet.....	.15	1.40	11.00	100.00

SELECT VARIETIES.

Alexander—Large size, handsome and regular in form, with deep maroon shade; adheres to the stone; should remain on the tree until fully ripe. White flesh. Last of June.

Athens—One of the finest yellow clings in existence. Very large, hardy and productive. Season, September.

Barnes—A late Blood Cling. Season, October 1st. Not a market sort.

Carman—White flesh, large, with beautiful mottled red cheek. A valuable home or market sort. Season about ten days later than Alexander and about two weeks earlier than Elberta. Our stock came from the originator.

Brigg's Red May—Medium size, very highly colored; flesh greenish white, very juicy, vinous, and of very good quality; adheres somewhat to the stone; of firm texture tree very prolific. July 25th.

Champion—Originated at Nokomis, Illinois. Fruit large, beautiful in appearance; flavor delicious, sweet, rich and juicy; skin creamy white, with red cheek; free-stone. August 15th.

Chinese Cling—Most popular Southern peach, oblong, creamy skin, with faint flashes of red. August.

Crawford's Early—This beautiful yellow peach is highly esteemed for market purposes. Fruit very large, oblong, skin yellow, with fine red cheek; flesh yellow, juicy, sweet and excellent, free. Last of July. Would not advise planting this sort north of Central Missouri.

Crawford's Late—Fruit of the largest size; skin yellow, or greenish yellow, with dull red cheek; flesh yellow; productive; one of the best free. August and September.

Chair's Choice—Large, late, yellow. One of the best for home or market planting.

On Club Orders amounting to over \$25.00, 10 per cent additional in stock will be allowed.

Ralls County, Missouri, August 1st, 1904.

I wish to say I have been buying and planting trees for nearly thirty years. In that time I have bought fruit trees from many nurseries, but I can, in all candor and truth, say you are the only people from whom I have bought trees where the trees were always true to name and possessed all the qualities of first-class stock. I am somewhat particular, but in our dealings for over thirteen years there has never been a point of difference between us. You have a good name and you deserve it. It has been honestly won.

R. DALTON.

Peaches—Continued

Capt. Ede—Originated on farm of Capt. Ede in Illinois. Is a splendid yellow free-stone variety. In appearance very much like Elberta, which it equals in every way, except not quite so large, and is better quality.

Crosby—If you want peaches every year, try some Crosby. It is medium size, rich orange yellow, splashed with red and of best quality. Mid-season.

Elberta—A Georgia cross between Crawford and Chinese Cling.; very large, well colored; all things considered the finest yellow free-stone in cultivation; no one can go amiss by planting it; fruit perfectly free from rot, and one of the most successful shipping varieties. August 20th.

Gold Dust.

Emma—A popular new sort of Southern origin.

Family Favorite—Free, seedling of Chinese Cling, of better color, large, clear, waxen complexion, with blush; prolific, firm, valuable for shipping, canning or drying. Last of July.

Foster—Same season as Crawford's Early, but much more productive; yellow, with red cheek; quality best; good size.

Fitzgerald—Of Crawford type. A seedling found at Oakville, Ont., where it stands the winter perfectly; is about as hardy as Elberta; quality first class; yellow free-stone, and we recommend it.

Gold Dust—If you want the very best canning variety, this is the peach. Large yellow cling-stone; juicy, productive and of best quality. Season, September 1st to 10th.

Globe—An improvement on Crawford's Late; fruit large, globular, of a rich golden yellow with a red blush, flesh yellow; juicy. Not very hardy or productive. August.

Golden Gate—Originated by Dr. Smith, of Hermann, Mo. Very productive, large, beautiful yellow. Season a week later than Elberta. Tender in bud.

Peach Trees—Continued

Henrietta (Levy)—Magnificent yellow cling, large size, slightly covered with bright crimson; hardy, productive; always commands fancy prices. September 25th.

Heath Cling—Large, oblong, creamy white, slightly tinged with red in the sun; very tender, juicy, melting; very rich and luscious. September 15th.

Mountain Rose—Large, red; flesh white, rich, juicy, excellent. Season, August 1st to 10th.

Miller Cling Peach—An extra large cling-stone. Hardy, productive, and of best quality. Earlier season than Heath Cling, but large and better color.

Matthews Beauty—Originated in Georgia. A late yellow free-stone, Fully as large as Elberta and two weeks later. Would advise extensive planting of this sort.

Muir—A medium yellow free-stone. Hardy; productive. September.

Old Mixon Cling—Large, with red cheek; juicy, rich and high flavored; one of the best cling-stone peaches. White flesh. August 15th.

Old Mixon Free—Large, white flesh, with deep red cheek; rich and good; one of the best. August.

Queen—A very late September variety. Originated in Howell County, Missouri; free-stone, white flesh, red cheek.

Ringgold Cling—Much larger than Heath, in every way an improvement on that popular kind. September.

Reeve's Favorite—Flesh yellow, tree hardy and productive; unexcelled quality; one of the best and most reliable yellow market peaches. Season about August 10th. Not quite so hardy as Elberta.

Salway—Fruit large, yellow, with red cheek; flesh yellow, a late showy market sort. Free-stone. September 15th. Hardy.

Smock Free—Fruit large, skin orange yellow, mottled with red, a good market sort. September 15th. Hardy.

Sneed—Ripens earlier than Alexander, and belongs to an entirely different type; it is very distinct in tree and fruit, belonging to the Chinese Cling type; size medium. Hardy.

Stump the World—Very large, roundish; skin white, with a bright red cheek; flesh white; free-stone. End of August.

Susquehanna—One of the handsomest peaches; large, yellow flesh; rich and good; free-stone. September.

Thurber—A seedling of the Chinese Cling, which it resembles in size and color; skin white, with light crimson mottlings; free-stone. Ripens in August.

Triumph—The earliest yellow peach known; productive, hardy and profitable for market. Originated in Georgia. Hardy.

Wonderful—Color rich yellow; flesh yellow, highly flavored, firm. Ripens in September. Very similar to Smock.

Wheatland—Large, roundish, skin golden yellow, shaded with crimson on the sunny side; flesh yellow and of fine quality; tree vigorous. August and September. Just ahead of Elberta.

Kansas City, Kans., 4-9-07.

"Enclosed please find draft for \$62.50 for stock received. Was well pleased with peach trees, as I have always been with stock from you."

Palisade, Colo., Jan. 25, 1906.

The Elbertas from your place set two years next spring, are the finest orchard of their age ever raised here in the "Home of the Peach," where they attain the highest perfection in the world. I value this orchard at \$1,000 per acre.

(DR.) J. H. DIVINE.

Plums

	Each	10	100	1000
First Class Trees, 5 to 6 feet, 11-16 up.....	\$0.35	\$3.00	\$20.00	\$180.00

Small Size Trees, 2 to 3 feet.....	.20	1.50	10.00	85.00

OUR SELECT LIST OF VARIETIES.

Abundance—A hardy, productive Japanese sort. Large, purplish red; quality very best. Season, early in July.

Burbank—Large, varying less in size than the other Japanese Plums; it is nearly globular; clear, cherry-red, with a thin lilac bloom; flesh deep yellow, firm and meaty, tree vigorous and productive.

Common Damson—Well-known and very productive. Season, September.

Golden Beauty—Round, rich golden yellow; very firm; small seed; nearly free, excellent in quality; immensely productive. September.

German Prune—Very profitable, and will succeed wherever Common Damson can be grown. Very large. We consider it the best of European sorts. August and September.

Ogon—It is large, nearly round; of the brightest golden yellow; flesh firm, sweet, rich and dry; ripens a little earlier than Abundance or Bontan. Free-stone.

Red June—One of the largest Japanese varieties, ripening before Abundance. Tree upright, vigorous, hardy.

Shropshire Damson—A plum of fine quality, sprightly. In market it has commanded nearly double the price of the Common Damson, and is enormously productive. Last of September.

Willard—One of the imported Japanese varieties, ripening before Abundance. When ripe is dark red. Very early, but poor quality.

Wild Goose—Large, rich, crimson, beautiful flesh, soft, melting, delicious, with a full, fruity flavor. Tree a strong grower, prolific. The variety is among plums what the Ben Davis is among apples—referring to the American class of plums. July.

Wickson—We regard this as one of the best of the late ripening Japan sorts. Readily parts from the seed. Extra large. Season, August.

Standard and Dwarf Pear Trees

Our Pears are especially clean, smooth and well rooted, grown on XX French imported stocks. Varieties marked D. and S. can be supplied in either standard or dwarf.

	Each	10	100	1000
Leading sorts, first-class, 5 to 7 feet, 2 yrs...\$0.40	\$2.50	\$20.00	\$170.00

Leading sorts, 1 year, 3 to 4 feet..... .25	1.50	12.00	100.00	

PEARS—SUMMER.

Koonee (S)—The handsomest, best and most valuable; very early pear; tree vigorous; upright grower; free from blight; magnificent foliage, which it retains late in the season; fruit medium to large; skin yellow, does not rot at the core, juicy, spicy, sweet and delicious quality; and excellent shipper.

Bartlett (D. S.)—Large, skin very thin, clear lemon-yellow with soft blush on the sunny side; flesh white; buttery, very juicy and highly flavored; the best summer pear in existence for quality.

Clapp's Favorite (D. S.)—Large, pale lemon-yellow, marbled with crimson on sunny side and thickly sprinkled with brown dots; flesh finely grained and melting, with a rich vinous flavor. August.

Seckel (D. S.)—This small but most delicious pear originated on the farm of Mr. Seckel, near Philadelphia. Its highly concentrated, spicy, honeyed flavor is not equaled by any other variety. Skin brownish-green, with a russet-brown cheek; flesh whitish, buttery, juicy and melting.

PEARS—AUTUMN.

Buffum—Medium size, yellow, somewhat covered with reddish-brown and russet; buttery, sweet and excellent; a stout and upright grower.

Duchess d'Angouleme (D. S.)—Very large; greenish-yellow; sometimes a little russeted; makes a beautiful tree. One of the best. October and November.

Garber—Originated in Pennsylvania 23 years ago, is large and beautiful, bright yellow with red; juicy and good; delicious canned. Ready to pick with Le Conte, or a few days later, and much better, not only in fruit, but in hardiness and health of trees.

Flemish Beauty—Large, beautiful, juicy, melting, rich and fine; strong grower and good bearer; hardy everywhere. September and October.

Howell (D. S.)—Large, light waxen yellow, with fine red cheek; handsome, rich, sweet, melting, perfumed aromatic flavor. Tree an upright, free grower, an early and profuse bearer. Very hardy and valuable. September and October.

Kieffer's Hybrid—Tree a remarkable grower, with so vigorous a constitution that it rarely blights. Fruit of fine size, rich color and good quality. Brings high prices in competition with other varieties. Best when picked at maturity and house-ripened. October and November.

Cherry Trees

Our Cherry are all budded on Imported French Mahaleb and Mazzard stock. They have fine roots and nice heads. All well rooted and will be graded full size indicated, and up.

	Each	10	100	1000
Leading sorts, extra select, 4 to 5 ft.....	\$0.40	\$3.50	\$28.00	\$260.00

Leading sorts, small size, 1 yr., 1½ to 2½ ft..	.20	1.50	12.00	100.00

OUR SELECT LIST OF VARIETIES.

Baldwin—A new variety of great promise, hardy and said to be productive.

Dyehouse—Very early and sure bearer; ripens before Early Richmond; but not quite as productive. May.

English Morello—Medium to large; blackish red; acid; juicy. Very productive. Short lived. July.

Early Richmond—(Kentish, Virginian or Early May)—Medium size, red; melting, juicy, sprightly, acid flavor. This is one of the most valuable and popular of the acid cherries, and is exceedingly productive. First of June.

Elton—A splendid sweet sort, about ten days later than Gov. Wood, which it somewhat resembles.

Gov. Wood—One of the best cherries; very large, light red, juicy, rich and delicious. Tree healthy and a great bearer. May and June.

Montmorency—No doubt one of the finest acid cherries; tree very hardy and an immense bearer; commences to fruit while young, and is loaded annually thereafter with fine crops; fruit of good size, fine flavor, and of bright, clear, shining red; valuable everywhere, especially for northern latitudes; larger than Early Richmond, and fully ten days later. End of June.

Magann Cherry—A new sweet cherry. Fruit large, almost black when fully ripe, growing in large clusters. It will pay you to include some of these in your order for other stock.

Wragg—Originated in Iowa. Medium to large in size, long stem, dark purple when fully ripe. A variety well adapted for the high latitude and prairie regions of the Northwest.

DISTANCES FOR PLANTING.

Standard Apples	30 feet apart each way
Standard Pears and strong-growing Cherries.....	20 " " " "
Duke and Morello Cherries.....	18 " " " "
Standard Plums, Apricots, Peaches, Nectarines.....	18 to 20 " " " "
Dwarf Pears	10 to 12 " " " "
Grapes	rows 10 to 16 feet apart, 7 to 16 feet in rows
Currants and Gooseberries.....	3 to 4 feet apart
Raspberries and Blackberries	3 to 4 by 5 to 7 feet apart
Strawberries, for field culture.....	1 to 1½ by 3 to 4 feet apart
Strawberries for garden culture.....	1 to 2 feet apart

NUMBER OF TREES ON AN ACRE.

30 feet apart each way	50
25 " " " "	70
20 " " " "	110
18 " " " "	135
15 " " " "	205

Rule—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill; which, divided into the number of square feet in an acre (43,560) will give the number of plants or trees to the acre.

WHAT SOME OF OUR CUSTOMERS SAY.

J. J. Britt, Benton County, Ark.

"The 10,000 peach trees arrived a week ago. All in good condition and a very fine lot of little trees. They look to be all Elberta. The entire 10,000 all go to one man, all set in one orchard and I had to give him my guarantee that they are Elberta, and this is the reason I ordered them from you. I could have bought them a little cheaper, but I thought I'd run no risk if I bought from Bagby & Son."

Over 250,000 peach trees from our nurseries have been planted in Benton, Washington and Crawford Counties, Arkansas.

E. H. Hatcher, Cochise Co., Ariz., Jan. 11th, 1907.

Enclosed I hand you New York Exchange for \$53.52 as per your invoice for Nursery Stock dated Nov. 30th, 1906. Owing to the delay in transit, the agent here let us open the box and examine the trees, and they were in fine condition, and we are well pleased with them. Your packing is A 1.

"I received trees all O. K. and return freight bill for same, as you requested."—Chas. Trueblood.

J. H. Turner, Tulare Co., Calif., March 22, 1907.

"The trees shipped to me from your nursery came yesterday. The trees passed inspection in good shape, and all parties are well pleased."

Fresno County, Calif., 12-19-06.

The car of trees came in here on the 15th, on very good time, and we have unloaded the car. Find the trees very satisfactory, and if you can send us this kind of stock when we order in the future we will be satisfied. We are well pleased with this car of trees and the manner in which you filled our order. The trees were packed very carefully in the car and we wish that you would tell the man in charge of your packing that we are pleased with his work.

Los Angeles Co., Calif., Dec. 14, 1906.

Peach trees just reached us and unpacked. Came through in excellent shape and gave good satisfaction.

Over 500,000 peach trees from our nurseries are in bearing in California.

Our largest single shipment of one variety at one time was 80,000 Elberta to Jacksonville, Texas. November, 1902. These trees are all now in bearing.

W. S. Coburn, Delta County, Colo.

"Gents:—On my arrival home of the 10th inst. the three boxes containing 2,700 trees came to hand and were in very fine shape. Kindly send me bill and I will remit at once and oblige."

Over 250,000 Elberta from our establishment are in bearing in Western Colorado.

Lincoln County, Idaho, 4-22-07.

The stock of trees that my son and I ordered and was shipped on the 19th of last month, received in fine condition.—W. M. & H. L. Brown.

B. H. Merriman, Madison Co., Ill., 4-17-07.

"The trees reached us in three days from day of shipment in fine condition and checked out O. K. They are the finest lot I have ever bought."

Clark County, Ill., April 26th, 1905.

I received my trees from your nursery all right, and will say they were nice trees, being very carefully packed. This is the second time I have ordered trees from you, and both times I have received the best trees I ever got from anyone, and have received them in excellent condition.

Yours truly, LAFAYETTE PERISHO.

Our sales in Illinois in past six years have exceeded 450,000 fruit trees.

Wm. Cornthwaite, Parke County, Ind., 4-13-07.

"Trees arrived in good condition. Enclosed please find freight bill."

Monroe County, Iowa, April 23, 1907.

"We wish to compliment you upon the nice stock you sent."

JOHN R. CLARK.

C. H. Denoon, Appanoose County, Iowa, 4-22-07.

"I received your shipment of trees. They are nice trees. I thought I would write and let you know I was pleased with them. I want to thank you for the attention my order received."

Over 100,000 Apple and Cherry trees have been planted in Iowa from our nurseries.

Russell County, Kans., April 12, 1907.

"Gentlemen:—Our trees have arrived after being nine days on the road. They opened all right and were in perfect condition, and we found them to be far better than we had expected. You will get larger order next year. We thank you very much for sending us such fine trees." O. R. WEBER.

M. E. Potts, Labette County, Kans., 3-29-07.

"We received our order of trees in fine condition. Consider it the best bargain we ever got in trees."

Jefferson County, Kan.

"Have planted 2,000 trees from your nurseries in the past five years, all of which have given perfect satisfaction. Have planted trees from other nurseries besides yours. The other fellow's agent had to admit your trees were the best. Expect to continue to deal with your firm."

W. Q. DANIELS.

Graves County, Ky.

"Gentlemen:—My trees reached me April 5th, and I have about 100 trees left. I shall order earlier next time. My customers are very well pleased. Will you sell me stock at the same price for fall delivery?"

JNO. L. WRATHER.

C. G. Larabee, Sabine County, Ia.

"Yours of the 16th at hand, also trees. My box opened in good shape. The peach crop looks well. I have 1,200 trees to bear this year; am thoroughly interested in getting my neighbors at it."

Yakima Co., Wash., 4-9-07.

The shipment of 8,000 Peach trees has arrived and they are all right, and very satisfactory.

W. W. King, Steven sCo., Wash., 4-15-07.

I have just received the fruit trees shipped 3-13-07. They arrived in excellent condition and opened beyond my expectations.

Chas. E. Hill, Muskegon County, Mich.

"The stock I ordered of you was shipped March 19th, received here April 4th. The floods throughout the country I think was the cause of the delay. Stock arrived in fine condition. Must confess I am very much pleased with it. I have notified several parties who are interested in your stock to examine it."

Montevallo, Mo., March 1, 1907.

New Haven Nurseries, New Haven, Mo.

"Gentlemen:—It always gives me pleasure to show visitors my peach orchard. I challenge the state for big uniform growth. Only four missing in 1,125. All proved to be true to name. Bore a good crop last year. Promises a full crop this year. Shedding their bloom. All the trees I bought from you."

Very truly yours,

JACOB FAITH.

W. G. Gano, Parkville, Mo., August 17, 1904.

"Trees checked out all O. K. Splendid trees. Grade and promptness could not be better. All the trees we have bought of you have proven to be very vigorous and healthy and true to name."

W. C. Parsons, Randolph County, Mo., 11-19-06.

"I enclose you balance due on the trees, as per your bill of the 11-10-06. The trees arrived here O. K., Saturday the 17th, and I have been setting them out today. I had just got nicely started to setting them out, when a man came with about a dozen trees which I had ordered from Rochester, N. Y. The trees from N. Y. cost me nearly three times what yours did, and they were no comparison whatever to yours. I feel so disappointed that I did not order all from you."

Miller Co., Mo., 3-15-07.

"Trees arrived in good condition. Am very highly pleased with the same. Enclosed find check for \$80.00, less the freight which I believe was the agreement."

RAY LUMPKIN.

Daniel Lowmiller, Platte County, Mo., 4-4-07.

"Received trees all O. K. They came yesterday. Enclosed find draft for amount."

Jas. O. Erwin, Callaway County, Mo., 3-23-07.

"Trees arrived in apple-pie order. Have just set them out."

Scotland County, Mo., April 15th, 1905.

"Trees received in good shape and the men are well pleased with the quality. They say they are the best that they ever bought. I worked for —— two or three years. The trees you sent are the best I ever handled, and have handled thousands of trees."

Yours truly,

G. W. WILKINSON.

Osage County, Mo., 11-29-06.

"Enclosed find check for \$110.07 to settle my account. The stock was O. K."

W. H. JOHNS.

Taas County, N. Mex., 3-13-07.

"I received my trees on the 10th and unpacked and heeled them in today. They were well packed and appear to be in good condition and are certainly fine trees."

E. B. SMART.

O. S. Claggett, Suffolk County, Long Island, N. Y.

"I received the box of trees and have them all set out in an orchard, and am well pleased with them all. They are a fine lot of trees, all in fine order and in good shape; in fact, the best lot of trees I ever saw. Our neighbors all say they are a fine lot of trees; good roots and all."

Alamance County, N. C., March 31, 1905.

"Dear Sirs:—Trees came up all right. Nice trees, good condition, etc. Thanks to you."

Yours truly,

J. W. INGLE.

To show where our Trees are being extensively Planted

All were fruit trees, one, two and three years from bud or graft.

ABOUT AGENTS.

We are not employing traveling salesmen to solicit orders, but we shall be pleased to have you get up a club among your neighbors, and on club orders amounting to \$25.00 or more, at single tree or 100 rates, we allow you 10 per cent additional in stock. We put up each order in a separate package, so that upon receipt of the goods you have only to hand out the different lots as ordered. Many of our best customers buy in larger quantities at the lowest rates and distribute in lots as ordered by their neighbors.

We also desire to sell to nurserymen and dealers who buy to sell again, and special prices will be made on carloads or larger quantities than indicated in this list.

References—Some of our correspondents have asked us to give them bank references, and we hereby comply, and can also refer to other local banks and to the commercial agencies.

FIRST NATIONAL BANK

Washington, Mo.

TO WHOM IT MAY CONCERN:

THE NEW HAVEN NURSERIES of New Haven, Mo., have a paid in capital of \$60,000, and we know them to be thoroughly reliable in every way.

Established in 1872, they have by progressive methods, fair dealing, and the high quality of their stock, built up a trade which now reaches over the entire country, and places them in the front rank in the nursery business.

At no place do they bear a higher reputation or are held in better favor than in their own vicinity, where they are well known.

We take pleasure in recommending them to purchasers desiring to deal with a thoroughly reliable company. Respectfully,

E. C. STUART, Cashier.

We also refer to **Farmers' Savings Bank, New Haven, Mo.**, or any other local business firm, and to the commercial agency reports.

Harper County, Okla., 4-24-07.

"I received the bill of trees and think they are the best I have ever seen here in Oklahoma."

MARY CHAPMAN.

Armstrong County, Pa.

"Gentlemen:—Trees which arrived April 19th all in good shape, except one cherry tree, which was broken off at bud. Every one is well pleased with the trees."

SAM'L CALHOUN.

Loring Bly, Shenandoah County, Va., 10-25-07.

"I received the trees sent to Fisher's Hill, Dec. 18th. They were in good condition. The shipment to Gladys has not reached destination."

Agricultural College of Missouri

Experiment Station—Dept. of Entomology

CERTIFICATE *of* INSPECTION *of* NURSERY STOCK

To Whom It May Concern;

Columbia, Mo., Aug. 7, 1907.

This is to certify that on the 5th day of August, 1907, the Nursery Stock of the New Haven Nurseries, J. Bagoy & Sons Co., grown in their nurseries at and in the vicinity of New Haven, Franklin County, Missouri, was examined and no indication found of the presence of San Jose Scale, Peach Yellows, Rosette, or other dangerous insects or plant diseases liable to be transferred on nursery stock from the nursery to the orchard.

This certificate is good for one year from date of inspection.

J. M. STEDMAN, Entomologist

LEONARD HASEMAN, Deputy Inspector.

WE mail this condensed list of prices to our friends and customers, and will ask that they favor us with their orders as early as practicable. **The prices are for the goods at your station**, if your order amounts to \$10 or more. We have now growing in our nurseries over two million fruit trees by actual count. All clean and healthy. **Entomologist's certificate with each shipment.** No San Jose Scale, Yellows or Rosette has been found in this county.

Shipments to Pacific Coast and Southern states from our frost-proof storage during winter months via Southern Routes.

We are growers of what we sell, having over 500 acres devoted exclusively to the nursery business. Many nurserymen are simply jobbers in the trade, and cannot sell stock with the same certainty of being true to name and free from disease.

New Haven Nurseries

NEW HAVEN, MISSOURI

You order the trees—we do the rest. We pay the freight on small orders clubbed together for shipment to one point, if the amount is \$10.00 or more.
